## PROFESSIONAL SUMMARY

**Front-End Developer** building production web applications with React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS. Experienced in reusable components, responsive/mobile-first design, REST APIs, authentication, i18n/RTL, accessibility, SEO, performance, and testing. Proficient in AI coding agents such as OpenAI Codex and agentic development workflows to support end-to-end full-stack delivery, including architecture, front-end and backend code, API/database/authentication integration, debugging, testing, optimization, and deployment.

## TECHNICAL SKILLS

**Front-End:** React.js, Next.js, Next.js App Router, Server Components, Server Actions, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Vite, Responsive Web Design, Mobile-First Design, Reusable Components, Internationalization (i18n), RTL.
**State, APIs & Data:** TanStack React Query, REST APIs, API Integration, Auth.js/NextAuth, Node.js, Express.js, PostgreSQL, Prisma ORM, Drizzle ORM, Zod.
**Quality, AI & Workflow:** OpenAI Codex, AI Coding Agents, Agentic Development Workflows, AI-Assisted Full-Stack Development, Code Generation, Refactoring, Debugging, Test Generation, Accessibility (WCAG-aware), SEO, Core Web Vitals, Git, GitHub, ESLint, Vitest, Playwright, Vercel.

## PROFESSIONAL EXPERIENCE

**Freelance Front-End Developer - Self-Employed** | Remote / Menoufia, Egypt | May 2025 - May 2026

- Built and deployed responsive web applications using React.js, Next.js, TypeScript/JavaScript, Tailwind CSS, and Bootstrap across desktop and mobile breakpoints.
- Developed reusable component-based interfaces and integrated REST APIs, authentication flows, and relational database-backed features for production applications.
- Applied accessibility, SEO, web performance, responsive design, debugging, and cross-device/cross-browser testing practices to improve usability and maintainability.
- Used OpenAI Codex and AI coding-agent workflows to accelerate end-to-end website delivery across front-end implementation, backend/API and database integration, authentication, debugging, testing, optimization, and Vercel deployment.

## SELECTED PROJECTS

**HORAS Electronics Store** | *Next.js 16.3, React 19.2, TypeScript, Tailwind CSS 4, Prisma 7, PostgreSQL, Auth.js, Zod, next-intl*
**Live Demo:** horas-electronics-store.vercel.app

- Built a production bilingual e-commerce platform with Arabic/English i18n and RTL, responsive product browsing, search/filtering, wishlist, persistent cart, customer accounts, cash-on-delivery ordering, and a protected admin dashboard.
- Implemented authentication, database-backed product/account workflows, validation, rate limiting, image/file storage, testing, and Vercel deployment.

**PlayStation Session Manager** | *React 19, TypeScript, Vite, TanStack React Query, Express 5, PostgreSQL (Neon), Drizzle ORM*
**Live Demo:** playstation-session-manager.vercel.app

- Developed a responsive operations dashboard for gaming centers covering sessions, billing, inventory, expenses, shifts, and reporting, connected to typed API services and PostgreSQL-backed data workflows.

**SALMAN Immigration & Translation** | *Next.js 15.5, React 19.1, TypeScript, next-intl, next-themes, Zod*
**Live Demo:** salman-immigration-translation-omega.vercel.app

- Rebuilt a responsive bilingual service website with English/Arabic routing, RTL support, localized navigation, accessible UI, contact integrations, SEO-focused metadata/content, and performance-oriented front-end patterns.

**HORAS Clothing Store** | *Next.js 16, TypeScript, Prisma, PostgreSQL*
**Live Demo:** horas-store.vercel.app

- Built a responsive e-commerce experience with product collections, search, cart management, admin workflows, reusable UI components, and database-connected store features.

## EDUCATION

**Bachelor of Computer Science - Arab Open University (AOU)** | El Shorouk, Egypt | Sep 2023 - Expected Sep 2027
Relevant coursework: Software Engineering, Algorithms, Object-Oriented Programming (OOP), and Computer Science foundations.

## CERTIFICATIONS

- Front-end Web Development Diploma (React JS) - SEF Academy | Apr 2026 | 5 months | Final score: 98.28%
- Sprints x Microsoft Summer Camp - Web Development | Sep 2025 | 40 hours

Languages: Arabic (Native) | English (Conversational)
